Available in standard lengths of 200 cm, this FP8n LED tile profile is designed for LED strips with a maximum width of 14 mm. This profile system has wings with a large surface area (20 mm wide) on both sides, which are filled with tile adhesive and thus integrated into the tile concept. The tiles are glued to the wings. Thanks to its large surface area, the FP8n LED tile profile dissipates the generated heat very well.

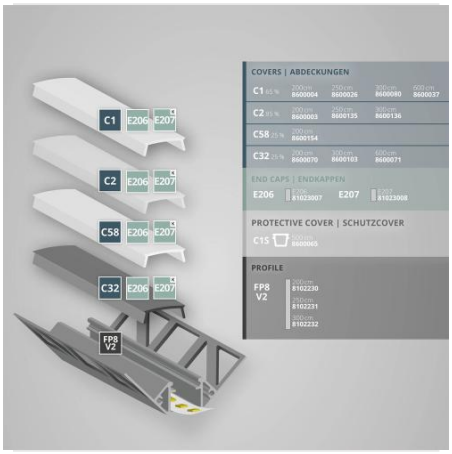

Features

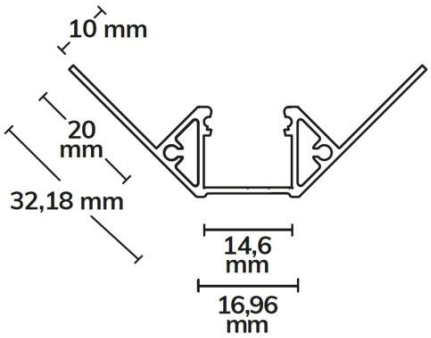

- Type: Tile
- Max. width LED strip: 14 mm

Technical specifications:

Product Name	FP8n LED tile profile inner corner 2m, LED strips max.14mm
