17.11.2026 - Disclaimer: information subject to change.

LED emergency inverter with automatic test function, suitable for 10–60 V LED circuits. Output current adjustable to 50, 60 or 70 mA. Can be used in maintained or non-maintained mode. Enables conversion of standard LED luminaires into emergency lighting.

Key product features

- **Power (W):** 4
- **Wiring system:** Maintained/non-maintained
- **Nominal operation time (h):** 3
- **Emergency function monitoring system:** Automatic self-diagnosis

Technical specifications:

Product Name	LED emergency pack | 10 - 60V | 70mA | auto test
Ean	8714984935310
Outer box qty	48st
Lamp type	LED
Power	4W
Nominal voltage	200 - 240V
Wiring system	Continuous circuit/emergency circuit
Nominal operation time	3 - 3h
Emergency function monitoring system	Automatic self test
Warranty	2 years
