17.11.2026 - Disclaimer: information subject to change.

This LED strip connector has an easy-to-use click system. Connecting wires do not have to be stripped, and soldering is not necessary.

For a waterproof connection, one must apply glue inside the connector, after which the opening can be sealed with a sealing cap. This means you don't have to wait for the glue to dry while applying the LED strip.

Features

- Suitable for connecting IP67 RGBTW 12mm LED strips, in combination with 6-wire cable 127-277
- Excluding glue 485-055
- Size: 20x17x8mm
